

The American Institute of Architects
Continuing Education System
AIA/CES Registered Provider Program Summary Handout

Provider: Stanley Security Solutions

Length: 1.5 Hour

Program #: 07ACS1

Credits: 1.5

Program: Access Control Systems

HSW: Yes

Description: The fundamental make up and components of access control systems will be explored. Technology, terminology and applicable Codes and Standards will be discussed.

A/V Needed: Electrical power and a screen for the presentation. The CES facilitator will provide the necessary laptop computer and will coordinate with the on-site professional development administrator to make provisions for projection equipment.

Learning Objectives: Develop a basic understanding of the following

- Basics of Access Control Systems
- Access Control – a component of the Security System
- How Access Control works
- The components of the Access Control Systems
- Terminology
- Codes and Standards relating to Access Control

Target Audience: Architects, Engineers, specifiers, owners, and other design professionals serving the commercial and industrial market. The recommended audience size is between 3 and 50 professionals. The program is suitable for professionals of varying experience level and includes a question and answer period at the end of the program.

How Taught: The CES facilitator utilizes a PowerPoint presentation to deliver a comprehensive course covering relevant issues for architects dealing with fire and life safety relating to openings.

Facilitator Qualifications: All Stanley Security Solutions representatives have been trained on CES guidelines and presentation skills.

Costs: This program is offered at no cost.
